GEOPLEX

GEOPLEX is a liquid fertilizer combining a mix NK blend, chelated trace elements and natural growth promoters.

CHARACTERISTICS:

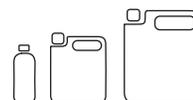

- Increased yield and quality
- Better taste and shelf life
- Improved root structure and plant growth promotion

COMPONENTS:

	w/v
Organic Nitrogen (N)	2.5%
Potassium Oxide (K ₂ O)	2.5%
Organic Carbon	11%
Magnesium (Mgo)	0.2%
Manganese (Mn) EDTA	0.16%
Iron (Fe) EDTA	0.16%
Zinc (zn) EDTA	0.06%
Copper (cu) EDTA	0.06%
Boron (B)	0.02%
Molybdenum (Mo)	0.004%
Fulvic acids, Seaweed extracts, Vitamins, Saponins, Amino acids and Powerful growth promoting.	

PACKAGING: 1 L, 5 L, 20 L

		CROP	PERIOD OF APPLICATION	DOSE
DIRECTION FOR USE	FOLIAR	FRUIT CROPS (STONE FRUIT, CITRUS, TABLE GRAPE)	Applications every 7-10 days	3-4 L/ha
		VEGETABLES (CUCUMBER, ZUCCHINI, EGGPLANT, PEPPER, TOMATO)	Applications every 7-10 days	2.5-3 L/ha
		ROW CROPS (WHEAT, MAIZE, OIL SEED RAPE, SUNFLOWER, SOYBEAN, RICE, SORGHUM)	Applications every 7-10 days	2.5-3 L/ha
	FERTIGATION	ALL CROPS	Applications every 7-10 days	10-15 L/ha

GEOPLEX

COMPLETE FERTILIZER

ALL IN ONE

4 Stages of plant growth

N.P.K for all crops, particularly in the first phases of the plants development and during the period of the fruits ripening.

FULVIC ACIDS bio-available nutrition with very small molecular size allowing fulvic-chelated minerals rapid entry through plant cells.

AMINO ACIDS Chelation, Protein building, Immune support, Plant growth promotion and Promotes the ripening and Colouring process in fruit.

SEAWEED EXTRACT improves both growth and flowering and is a powerful anti-stress tool.

SAPONINS have been extracted from nature to provide support to the plant's active immune system.

VITAMINS are essential for the growth and development of plants. Vitamins are organic compounds providing essential nutrients, and are proven to help plant growth.
